Responsibilities

Ward Ching is Managing Director – Western Region, Global Risk Consulting located in San Francisco, California. He is primarily responsible for Captive and Insurance Management Services, Domicile Management, and supports a variety of Aon Management Consulting Services to clients. Ward is also part of Aon's Alternative Risk Finance Practice and Aon's Multinational Client Council, servicing Aon's largest international client base.

Experience

Prior to joining Aon, Ward was Vice President, Risk Management Operations at Safeway Inc. located in Pleasanton, California. His responsibilities included Enterprise Risk Management, Integrated Risk Finance, Hazard Loss Control, Environmental Compliance, Property Risk Control/Engineering and a variety of retail, distribution, and manufacturing risk management initiatives, including Safeway's Culture of Safety. Prior to joining Safeway, Ward was a Principal at Towers Perrin and a Managing Director at Marsh. In 2018, Ward will be teaching Risk and Insurance Management as Adjunct Professor at the University of Southern California Marshall School of Business.

Expertise

Ward is a frequent author and speaker on the subjects of Strategic and Enterprise Risk Management, the use of NextGen analytics, and structured risk finance. He has been working closely with a number of research and business organizations, such as the Risk and Insurance Management Society and several University Business Schools to investigate and report on complex enterprise risk issues, methods and solutions.

Education

Completed undergraduate and graduate degrees, International Relations and Economics, University of Southern California

Has taught and written extensively on the subjects of International Relations, Game Theoretic Applications in Foreign Policy and Behavioral Enterprise Risk Management.

Ward is the 2018 Risk & Insurance Management Society Harry & Dorothy Goodell Award. The Goodell Award is the RIMS highest professional honor that recognizes one person yearly who is furthering the goals of risk management and RIMS through outstanding achievement, research and professional contribution.
